DEBRAJ ROY COLLEGE:

Debraj Roy College came into being in the wake of independence of the country around 1949. In the post independence period, there was a surging atmosphere of great joy and excitement all over the country and this tempo was also felt in an isolated and sleepy town like Golaghat. There was a craze for higher education among all sections of the people, particularly the students. At that time, there was only one college at Jorhat for the upper Assam region. Higher education was out of

reach for the general students of this educationally backward district. This consideration led some spirited persons of the district to establish a college at Golaghat. This premier institution of higher education may be regarded as the brain child of Ajyodhya Prasad Goswami, who was then a student leader, Sankar Ch. Baruah, a leader of the freedom movement, Golap Ch. Goswami, Dr. Promodaviram Das, Jadunath Saikia etc. The college was finally 'started' on 1st September, 1949, at the premises of Govt. Bezbarooah High School (now a Higher Secondary School) and then shifted to mission compound and was known as Golaghat College, affiliated to Guwahati

University. With the subsequent shifting to the present site in 1952, the college was renamed as Debraj Roy College. By naming the college as Debraj Roy College, a well deserved tribute was paid to Late Debraj Roy the founder of Bogidhola Tea and Trading Company, Golaghat, on whose cherished memory his son Surendra Nath Roy, the then MD of Bogidhola Tea & Trading Company, donated a considerable amount of financial grant for the construction of the main building

of the college. In the same year the Government of Assam also allotted about 14 acres of Land for the college at the present site. This was the first college in the district (then a sub-division of undivided Sibsagar district) borne out of necessity and awareness infused by the national freedom movement. Besides providing education to common mass and transmission and generating of knowledge, the other main objective of the college was the socio-economic development of the country as a whole and the region in particular. The college is situated in an ideal location of the heart of the town just in front of the Circuit House. The serene atmosphere with calm green surrounding is conducive to academic pursuits. Starting with just 57 students (Boys 43 and Girls 14) in the year of its inceptions, the college has marched along with time and is now one of the
